Aspiring Astrology Specialist | 10+ Years Enterprise Client Success

Transitioning corporate strategist and dedicated astrology student bringing over a decade of global client operations experience to the esoteric space. Progressing from an early study of Western astrology and Tarot into a rigorous, ongoing immersion in Vedic astrology. Unique ability to translate complex, data-heavy systems into accessible, empathetic narratives for clients. Passionate about synthesizing traditional astrological frameworks with highly structured business operations and modern AI workflows to elevate the client experience.

Astrological Education & Practice

Independent Astrological Consultant & Writer | Bengaluru, India | Present

- Conduct ongoing, comprehensive natal chart readings for private clients, seamlessly using Vedic frameworks and Western concepts respectively to provide actionable, holistic guidance.
- Synthesize complex planetary alignments and dignities into empathetic, human-centered advice for individuals navigating significant career, relationship, and personal transitions.
- Actively study foundational classical texts and modern trauma-informed interpretation methods, supplemented by Tarot and Numerology to offer multi-dimensional support.

SaaS & Startup Experience

B2B SaaS & Tech Startups (Xoxoday, TES Rewards, Monkey Adventures) | 2018 – 2026

Led cross-functional client success and global operations across diverse tech environments.

- **P&L & Global Scaling:** Launched and managed B2B categories across the US, UK, and India, independently onboarding over 300 enterprise brands and driving ~$150k USD in GMV within a six-month period through highly structured client relationship management.
- **Complex Client Logistics:** Directed intricate global logistics and customer operations across four East African countries, scaling a localized 10-member team while sustaining a 4.8/5 CSAT score through proactive problem-solving and high-touch communication.
- **Data Translation & Narrative Building:** Utilized CRM analytics and AI integrations to build multi-channel outreach strategies, translating software architectures into clear, compelling, and human-centric narratives for CXO-level clients.

Education

- **Master of Business Administration (International Business)** – St. Joseph's College | 2019 – 2021
- **Bachelor of Business Administration (Marketing)** – CMS College | 2014 – 2018
